STYLE GUIDE

When the original Russell Collection of Shirts launched, it transformed the industry with an approach to design previously reserved for retail fashion. Today our collection of smart businesswear continues to innovate and lead the market with garments that are tailored to flatter and designed to perform. Russell understands this, so we give you lots of choice.

Whether your business is more about presenting a traditional corporate image, a fashion edge, requires a more durable solution, or if it's about finding a more relaxed image, we offer stretch shirts, easy-care fabric shirts, non-iron, classic-smart Oxfords, Herringbone, Twill and premium fabrics across the collection. We really do have the perfect shirt for every business and every job out there.

CUFF STYLES

ROUNDED EDGE CUFFS

Adjustable with 2 buttons.

SQUARE EDGE CUFFS

Adjustable with 2 buttons.

MITRED EDGE CUFFS

Adjustable with 2 buttons.

COCKTAIL CUFFS

These can be worn either turned or not turned, for a stylish look.

CUFF LINKS

Many shirts offer the option to wear cuff links.

COLLAR OPTIONS

BUTTON DOWN

A modern sporty collar that comes from polo sports styling, the buttoned-down collar gives a smart appearance without a tie..

KENT

Perfect for business, this classic collar is named after the Duke of Kent. Our Kent collars are stiffened, boned collars suitable for embroidery.

NEW KENT

The New Kent is a combination of the Kent and Cutaway styles.

Not as wide-flared as the Cutaway or as sharp-cut as the Kent collar, this modern style is stiffened, boned and suitable for embroidery.

UNDER BUTTON DOWN

Like the classic button-down, collar points are fixed to the shirt, but the buttons remain hidden under the collar. This type of collar is ideal for wearing without a tie and with an open collar button.

LADIES

Our Ladies' Shirts feature a classic collar distinguished in style by its length and shape.

STYLING HINTS

LONG SLEEVE OR SHORT SLEEVE?

Both work in a business environment, but shirts with long sleeves tend to look more elegant. Always wear a long-sleeve shirt with a jacket/suit.

PERFECT SLEEVE LENGTH

Your shirt sleeve should end at the base of the thumb, and the cuff should stand out 1cm further than your suit jacket sleeve.

ELEGANT TUCK

When tucking in, avoid letting the shirt wrinkle too much. Buttons, belt buckle and fly should all be in one line. Ensure your shirt is long enough – the shirt should not come out of your trousers when you lean forwards.

FINISHING TOUCHES

Match your outfit with suitable shoes and belts – typically these should be the same colour (black & black, brown & brown). The right tie and a watch complete your stylish look.

THE RIGHT SHIRT IN THE RIGHT FIT

Our shirts are available in three fits – Classic, Tailored and Fitted – with sizes up to 6XL providing a fit for everyone. With our extensive choice of fabric and colours your clients can achieve a truly distinctive look.

FINDING YOUR SHIRT SIZE

To find your shirt size, measure around the neck, just below the throat area. With a closed top button, a finger should fit comfortably between the collar and the neck. To measure the chest, measure the fullest part – about 2.5cm below the underarm. Information about our shirt sizes can be found in our size guide. (Page 134)

CLASSIC

A traditional shaped shirt for a relaxed fit.

TAILORED

A semi-fitted shirt for a more contemporary look.

FITTED

A slim fit for a stylish and fashionable appearance.

When only 100% cotton will do, our 577 Ultimate Cotton Polo is the natural choice. Our fabric is pre-washed so it will hold its size and shape for longer – making it extremely well suited to team wear. We use finer, thinner yarns along with the double-tuck pattern to create an exceptionally stable fabric with a very dense knit. The result is a softer hand-feel and a finer surface that's ideal for more detailed embroidery.

- » Classic Fit
- » Contemporary cut
- » Fine honeycomb pique structure
- » Reinforced shoulder seams with herringbone neck tape
- » Side vents with internal herringbone taping for added stability and better fit
- » Open sleeve with twin needle hem (577F)
- » Classic style flat knit cuffs (577M)

AUTHENTIC COLLECTION

Our Authentic collection encapsulates everything our founder Benjamin Russell was looking to create when he invented the sweatshirt back in 1920.

A timeless design, super comfortable and practical to wear, the collection has become a firm favourite across business and leisure sectors.

In 2019 we're expanding the Authentic family with a brand new 100% organic cotton T, the Authentic Tee Pure Organic, a new Authentic Baseball Sweat and Authentic Hooded Baseball Sweat.

What's more we're adding a melange option to some of your favourite designs. There's the Authentic Melange Sweat, Authentic Melange Hooded Sweat, Authentic Melange Zipped Hooded Sweat.

Live your Authentic life!

WHAT MAKES AN AUTHENTIC SWEATSHIRT

1

100% COMBED COTTON OUTER LAYER*

The outer layer is 100% combed cotton providing a great handfeel, and excellent surface for decoration.

* Some Melange-Colours with a minimum of viscose in outer layer.

2

SPECIFIC FABRIC CONSTRUCTION

LAYER FABRIC

3

A COTTON RICH FABRIC

80% combed cotton and 20% polyester (except Authentic Melange & Baseball Sweats)

4

BRUSHED COTTON AND POLYESTER BLEND INNER LAYER

The inner layer is a brushed cotton /polyester blend, for unrivalled comfort and warmth.

5

100% POLYESTER LAYER

The outer and the inner layer are tied together by a 100% polyester layer. It's this third connecting layer that makes a noticeable difference compared to lower quality 2 layer fleeces.

It separates the smooth outer surface from the brushed inner layer, and prevents the brushed inner fibres from poking through to the outside.

It also provides added stability to the entire fabric, ensuring a higher performing fabric.

6

MORE SUBSTANTIAL HANDFEEL

And last but not least, it creates a fuller, more substantial handfeel. The fabric appears heavier and more luxurious than a 2-layer fabric of the same weight.

7

HIGH GRADE COTTON

Add to this high grade cotton and finer yarns, and the result is the premium fabric our Russell Authentic Sweatshirts are made from.

SIZE GUIDE

All of our measurements are based on actual "to fit" body sizes rather than the size of the garment itself. For example, a polo shirt with a chest to fit size of 92-97cm / 36-38" will fit someone with this chest measurement; trousers with a waist to fit 50 Europe / 34", will fit a person with this measurement.

HERE ARE SOME TIPS TO HELP YOU CHOOSE THE MOST APPROPRIATE GARMENT SIZE(S):

1

CHEST

Men: Measure around the fullest part of the chest, 2.5cm below the underarm.

Women: Measure around the fullest part of the bust.

2

COLLAR

Men: Measure around the base of the neck.

3

WAIST

All: Measure around the natural waist, keeping the measuring tape taut.

4

LEG LENGTH

All: Measure from the top of the inside leg at the crotch down to where the trousers are normally worn with shoes.

5

HEIGHT

Children: Standing still with feet together and flat on the floor, measure from the top of the head to the ground.

GLOSSARY

DOUBLE YARN CONSTRUCTION

The double yarn is a unique construction where two slim fibres are twisted into one thicker yarn. This creates a very durable and hardwearing fibre with a softer, more cottonlike feel to the finished fabric, and gives an extremely stable surface for even the most complex decoration and embroidery.

FRENCH TERRY KNIT FABRIC

The inner layer is existing of a nonbrushed loop fabric. There is no fluff, which makes French terry knit fabric ideal for decorating.

HERRINGBONE

Named because it resembles the skeleton of a fish, the Herringbone broken chevron pattern is subtly different and distinctive.

LYCRA® T400®

The elastomultiester (LYCRA® T400®) is an advanced double fibre originally developed for jeans. It gently stretches and recovers in every direction and creates a premium garment that retains its fit, and moves with the user.

MICRO-TWILL

A very fine weave using thinner and smoother yarns, combining excellent flow and drape with the elegance of a fine weave fabric. An excellent fabric for premium formal shirts.

NON-IRON

Formal shirts that don't require ironing and stay wrinkle-free while worn. Traditionally achieved by applying a coating onto the fabric. Russell's ultimate non-iron shirts use a modern steaming technology that achieves superior non-iron properties without any coating.

OXFORD

The combination of elegant appearance and excellent durability make Oxford fabrics a good choice for shirts used as team uniforms.

PEACHED FABRIC

Fabric surface is softened by emerycovered rollers. This emerizing process breaks the surface of the yarns, creating a softer hand feel.

POPLIN

Poplin provides a smooth hand feel and an elegant looking surface, making it one of the most common weave types for formal shirt fabrics. It is tightly woven and provides excellent durability.

FEATURES

BREATHABLE

WINDPROOF

WATERPROOF

PIQUE

A fabric generally used for polo shirts. Most commonly used is the single tuck pique, with its finer micro pique variation using finer yarn and a narrower knitting pattern. The double tuck pique has a characteristic honeycomb pattern with superior durability and a softer hand feel.

RINGSPUN YARN

Ring spinning integrates shorter fibres into the yarn by adjusting them with the longer yarns. This leads to a smoother yarn with a softer hand feel and higher durability. Russell only uses yarn that is at least ring spun quality or better.

TENCEL®

A man-made fibre using a natural raw material and produced in an environmentally friendly process. Tencel® has superior hand feel, is very skin friendly and provides excellent moisture transfer properties. Tencel® is generally blended with other fibres; Russell uses blends with cotton.

TEFLON® (DUPONT)

Teflon® fabric protector is built into the fabric and repels water, oil, and stains. Moreover, it does not impact the weight, look, colour or breathability of the fabric.

TWILL

Varying the crossovers of the two yarns, warp and weft, creates diagonal patterns that improves the flow and drape of a garment. Russell uses twill weaves for shirt fabrics, as well as for workwear Trousers – the good flow of the fabric combining durability with wearer comfort.

SPOT SHIELD™

Fabrics with a SpotShield™ finishing repel water and most oil-based spills.

SPARE BUTTON

All Russell shirts and polos come with a spare button.
